Here is an example of how to use sub-files in $$\operatorname{LaTeX}$$

XAM NOSLIW April 22, 2016

Table 1: People in the Group

Name	ID

1 Shared Part

This could be the Shared Part of the document. It is designed to be written by all members of the team.

Each member should ideally write their details in the table of contributors in the Shared Part of the document.

1.1 Comments from the second student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.2 Comments from the third student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.3 Comments from the forth student

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

1.4 Table of Contributors

If you want to move a table around you will need to put some parameters in square brackets, if you want it exactly where it is positioned in the text editor just uncomment the [h] below, just after begintable

This is the table of contributors (Table ??):

2 First Member

This is the section dedicated to one of the team members, and it should be written individually. It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

2.1 Comments about the module

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

2.2 Selfie with Max

To include an image, you will need to remove the comments from the code below, place an image in the main folder, and do not forget to put the name of the image instead of ImgName.

You can then use the label of the figure to reference it later with the command $\$ ref. you can comment out the next line to see an example of how it works.

2.3 What I have learned in this module

3 Second Member

This is the section dedicated to one of the team members, and it should be written individually . It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

3.1 Comments about the module

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

3.2 Selfie with Max

To include an image, you will need to remove the comments from the code below, place an image in the main folder, and do not forget to put the name of the image instead of ImgName.

You can then use the label of the figure to reference it later with the command $\$ ref. you can comment out the next line to see an example of how it works.

3.3 What I have learned in this module

4 Third Member

This is the section dedicated to one of the team members, and it should be written individually. It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

4.1 Comments about the module

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

4.2 Selfie with Max

To include an image, you will need to remove the comments from the code below, place an image in the main folder, and do not forget to put the name of the image instead of ImgName.

You can then use the label of the figure to reference it later with the command $\$ ref. you can comment out the next line to see an example of how it works.

4.3 What I have learned in this module

5 Fourth Member

This is the section dedicated to one of the team members, and it should be written individually. It can include a range of things; first subsection is a space for you to point out the strengths and weaknesses of the module, including complaints about the module coordinator Max Wilson. The second section should have a selfie image with Max! The last part of it is the most important one. You will need to write a paragraph about what you have learned in this module. You can write it in **Bold** if you want or you can use other fonts.

Please do not forget:

- First paragraph should have your comments about the module
- Second one, a selfie img with Max
- Last one, what you learned in this module.

5.1 Comments about the module

This is the first subsection. Do not forget to include the best parts about the module as well as what you did not like about Max Wilson during the term.

5.2 Selfie with Max

To include an image, you will need to remove the comments from the code below, place an image in the main folder, and do not forget to put the name of the image instead of ImgName.

You can then use the label of the figure to reference it later with the command $\$ ref. you can comment out the next line to see an example of how it works.
